free of
fructose, gluten, yeast, granulated sugar, artifical sweeteners, lactose

Your heart is close to our hearts.

Burgerstein CardioVital is a comprehensive dietary supplement for heart health. It contains

- vitamin B1
- Omega-3 fatty acids EPA and DHA
- garlic extract
- Coenzyme Q10
- Selenium
- Vitamin K2

Vitamin B1 and the omega-3 fatty acids EPA and DHA contribute to normal heart function.

Burgerstein uses specialised extracts in its products, including CardioVital. We use the **ABG-25+®** garlic extract in our product**.**

The black garlic extract used in Burgerstein CardioVital is odourless and tasteless. Consequently, side effects such as bad breath, gastrointestinal problems, etc. are not to be expected.

CardioVital supports...

- **... anyone** -
  who wants
  to support their cardiovascular system - who cares about their vascular health
- **... active older people,**
  - who enjoy being active and doing sport
- **... cell**
  protection: Selenium helps to protect cells from oxidative stress.

Micronutrients & effect

- Thiamine contributes to normal heart function
- Omega-3 EPA & DHA contribute to normal heart function
- Selenium helps protect cells from oxidative stress
- Vitamin K2 contributes to normal blood clotting
- Coenzyme Q10 supports energy production and contributes to normal heart function
- Black garlic has a positive effect on blood pressure and cholesterol
- S-allylcysteine helps to reduce cardiovascular risk

Sport for heart failure

Sport with heart failure - is that even possible? This is a question asked by many people who have been diagnosed with heart failure. The answer from researchers and doctors is: people with heart failure should lead an active life. Properly tailored exercise can relieve the symptoms of heart failure, positively affect its progression, and strengthen the heart through exercise. **Ask your doctor for support on this topic.**

Nutritional values	Per daily portion (1 Kapsel)	NRV*
