## hair&nails supports...

- ... the maintenance of normal hair and for pigmentation
- ... elasticity and vitality  
Biotin and zinc contribute to the maintenance of normal hair Copper contributes to normal hair pigmentation Folate/folic acid and zinc play a role in cell division
- ... the nails  
Zinc contributes to the maintenance of normal nails
- ... and promotes the strength and resilience of nails
- ... together with all other micronutrients contained, comprehensively supports the metabolism of hair and nails (e.g. calcium for strength, folic acid for cell division and growth)

## Nourish. Strengthen. Nurture.

Burgerstein hair&nails contains an extract from millet and red algae, as well as a vitamin-trace element complex. In addition, the complex contains:

- biotin, folic acid and pantothenic acid
- the trace minerals copper, zinc, and calcium (from red algae extract, which is particularly rich in calcium)
- and L-methionine (made from high-quality millet extract)

Biotin contributes to the maintenance of hair and zinc supports the maintenance of nails. Folate/folic acid has an important function in cell division. Ideally, it should be taken for at least 3 months.

The Burgerstein hair&nails formula has been specially developed for the development and care of hair and nails. Seven active ingredients specifically support the metabolism of hair and nails, improve their quality and promote repair processes.

### Burgerstein hair&nails

- gives hair elasticity and liveliness
- promotes the strength and resistance of nails

The product is suitable for vegans and vegetarians.

Nutritional values	Per daily portion (3 tablets)	NRV*
