

ImmunVital capsule

- 

Content
60 Piece / Capsules
PZN 5585956
RRP 30,90 €
- 

Recommended intake
2 capsules / day
- 

without
genetic engineering, artificial flavorings, artificial colorants, artificial conservation
- 

free of
peanut oil, fructose, gelatine, gluten, granulated sugar, lactose, soya protein/lecithin, sorbitol

So that the immune system is back again.

Burgerstein ImmunVital Capsules contains

- Vitamin C and more vitamin D (1000 IU)
- trace elements selenium, zinc
- beta-glucan from yeast (Wellmune®)

The contained vitamins C and D as well as the trace elements zinc and selenium contribute to a normal function of the immune system.

- For all people who want to support their immune system as well as for **adults & adolescents, and children from 4 years old** who can swallow the capsule well.

Wellmune® is a yeast beta-1,3/1,6-glucan. Wellmune® is extracted from the cell wall of a proprietary strain of baker's yeast using a proprietary process. As a highly pure ingredient, Wellmune® is naturally gluten-free. It is clinically proven to help strengthen the immune system.

The product is suitable for vegans and vegetarians.

ImmunVital supports...

- ... all people who want to support their immune system as a cure or spontaneously.
- ... **Adults**
Vitamin C and D as well as zinc and selenium contribute to the normal function of the immune system
- ... **Children**
Vitamin D contributes to the normal function of the immune system in children
- ... **athletes**
Vitamin C contributes to a normal function of the immune system during and after intensive physical activity
Vitamin D contributes to the maintenance of normal muscle function
Vitamin C contributes to normal energy metabolism
Vitamin C contributes to the reduction of tiredness and fatigue

The immune system is vital...

- ... it protects the body from pollutants, pathogens and disease-causing cell changes
- ... it includes various organs, cell types and proteins
- ... and as long as the body's own defence system functions smoothly, it does not make itself noticeable
- ... the immune system protects us almost reliably and usually unnoticed
- ... and a problem only arises due to a defence or immune deficiency - when the body's own defence is no longer fully functional

Beta-glucan activates the most important immune cells in our body: the macrophages. These "scavenger cells" recognize organisms foreign to the body - such as bacteria, viruses, mutated cells, etc. - surround them and destroy them. Beta-glucan acts like a macrophage accelerator and thus triggers a chain reaction, as a result of which antibodies against foreign pathogens are formed to a high degree. In addition, beta glucan activates other cells of the immune system.

Scientists have isolated a highly active (1,3)-(1,6)-beta-D-glucan from a special yeast called **Wellmune®**. It is an all-natural, yeast-derived powder that greatly boosts the immune system. The natural substance, which is protected by over 40 patents, has even won 2 awards due to its clinically proven extraordinary effectiveness and high degree of innovation. Among other things, Wellmune® improved the general well-being of stressed test persons.

Nutritional values	Per daily portion (2 capsules)	NRV*
Vitamin C	200,00 mg	250%
Vitamin D	25,00 µg	500%
Selenium	55,00 µg	100%
Zinc	5,00 mg	50%
Beta-Glucan (Wellmune®)	250,00 mg	-

*NRV = reference amount for daily intake according to the EU Food Information Regulation (LMIV)

Ingredients: Beta-Glucan (Wellmune®) (31.3%), Calcium-L-ascorbat, Überzugsmittel (Hydroxypropylmethylcellulose), Trennmittel (Speisefettsäuren, Magnesiumsalze der Speisefettsäuren), Zinkbisglycinat, Natriumselenat, Cholecalciferol.

Additional information: Food supplements are not a substitute for a balanced nutrition. A balanced nutrition and a healthy lifestyle are important. Do not exceed the recommended daily dose. Store out of the reach of small children and at room temperature - please follow the corresponding package instructions. | RRP: Recommended Retail Price.

Important information: Not suitable for pregnant or breastfeeding women or only in consultation with your gynaecologist.
