- ... for tiredness and fatigue
Vitamin B6 + B12 and niacin contribute to the reduction of tiredness and fatigue
- ... the energy metabolism
Vitamin B6 + B12, niacin and pantothenic acid contribute to a normal energy metabolism

The essential oil of the lemon balm is responsible for the scent. It has a calming and anxiety-relieving effect, but can also help to alleviate digestive problems. The essential oil, which unfolds several effects in the body, supports nervous and anxious people in particular (slightly calming or anxiety-relieving). Thus, lemon balm can also help people to fall asleep. Bluenesse® - a special extract from lemon balm - combines the calming traditional effects uniquely and helps people to act in a goal-oriented and structured way even in stressful situations.

Mood contains the high-quality Affron® saffron extract. This extract is made from saffron of the highest quality, grown in Spain. The extract is obtained through a specially developed extraction method from the stamens of the exclusive saffron crocus (Crocus sativus).

Nutritional values	Per daily portion (2 capsules)	NRV*
Vitamin B6 (pyridoxine)	3,50 mg	250%
