Probase tablets

tablets

Content
150 Piece / Tablets
PZN 3052612
RRP 30,80 €

Recommended intake
5 tablets / day

without
artificial flavorings, artificial conservation, artificial colorants, genetic engineering

free of
fructose, gelatine, gluten, yeast, granulated sugar, artifical sweeteners, lactose, sugar substitutes

No need to be angry any more.

Burgerstein Probase tablets contain a balanced combination of minerals (calcium, magnesium, potassium) and trace elements (zinc, manganese) in a modern formulation.

The zinc contained contributes to a normal acid-base metabolism. Due to its composition, Burgerstein Probase Tablets are also ideal as a mineral supplement, e.g. for athletes. Burgerstein Probase Tablets are enteric-coated and can therefore be taken at any time of the day.

Also available in powder form. The product is suitable for vegetarians.

Probase tablets support...

- **... gastric juice-resistant**
  The release of the active substances only takes place in the small intestine. The full capacity of gastric acid for the digestion of protein (e.g. meat, cheese, ...) is retained.
- **ADVANTAGE: the tablets can be taken both during and between meals**
- **... ensuring the supply for all adults for their acid-base metabolism**
  Zinc contributes to a normal acid-base metabolism
- **... in the case of an unbalanced diet with an excess of acid-forming foods**
  e.g. meat, cereals, sweets & desserts, soft drinks
- **... if the consumption of vegetables and fruit is too low**
  With less than 5 portions per day
- **... athletes**
  As a mineral preparation
- **... the prevention of muscular hyperacidity**

A balanced acid-base balance is important so that our metabolism can do its work. Diet has a great influence on the acid-base balance, stress and little exercise damage both the metabolism and the acid-base balance.

Nutritional values	Per daily portion (5 tablets)	NRV*
Potassium	800,00 mg	39%
Calcium	500,00 mg	63%
Magnesium	300,00 mg	80%
Manganese	2,00 mg	100%
Zinc	4,00 mg	40%

*NRV = reference amount for daily intake according to the EU Food Information Regulation (LMIV)

Ingredients: Calcium carbonate, potassium hydrogen carbonate, magnesium carbonate, coating agents (shellac, talc, hydroxy propyl methyl cellulose), modified starch, separating agents (magnesium salts from fatty acids, silicon dioxide), zinc gluconate, manganese gluconate.

Additional information: Food supplements are not a substitute for a balanced nutrition. A balanced nutrition and a healthy lifestyle are important. Do not exceed the recommended daily dose. Store out of the reach of small children and at room temperature - please follow the corresponding package instructions. | RRP: Recommended Retail Price.

Important information: Magnesium preparations with more than 250 mg magnesium can have a laxative effect.
